Subject: RE: Agenda for Seminole Tribe's Consultation with EPA on Florida's 404 Program Assumption Application & Section 106 NHPA

The only topic that grabs my attention as potentially calling for an additional participant is the Endangered Species Act/Species Review Process. I think we can cover that with a certain depth, but would it be better to ask if Alexis is available, as our team's ESA expert best suited to answer any complex questions?

Subject: FW: Agenda for Seminole Tribe's Consultation with EPA on Florida's 404 Program Assumption Application & Section 106 NHPA

All,

Rachael Santana sent an agenda for our meeting with the Seminole Tribe. As you can see there are a lot of topics and Rachael suggested we skip providing a presentation to allow more time for discussion. Please forward to anyone else that needs to see the agenda. I just spoke with Stacy Myers with the Seminole Tribe who suggested once we've reviewed the agenda to send him the invite list and they will create a WebEx meeting for Monday.

Tom/Rosemary,

I believe we already have a tentative invite list for the meeting but will allow some time for feedback about others we may need to invite based on the topics below. I will plan to send a response back to Stacy and Rachael in the morning.

Kelly Laycock
Wetlands Regulatory Section
U.S. Environmental Protection Agency

Subject: Agenda for Seminole Tribe's Consultation with EPA on Florida's 404 Program Assumption Application & Section 106 NHPA

Good afternoon Mr. Laycock,

It was a pleasure speaking with you a few minutes ago. Mr. Myers has a very full plate this week and I would be more than happy to facilitate coordinating the Seminole Tribe's Consultation with EPA on the Florida 404 Program Assumption Application & Section 106 of the National Historic Preservation Act. Thank you for confirming that EPA is available **Monday, September 28, 2020 from 10:30am-12:00pm EST** for this consultation.

As we discussed, please see below on the proposed agenda topics for discussion, time permitting.

- Introductions
- Dispute Resolution Process/EPA Review
- Policy Shift on Discretionary Nature of 404 Assumption
- Coordination with Advisory Council on Historic Preservation
- Endangered Species Act/Species Review Process
- Water Quality Certifications?
- Nationwide Permits/FDEP General Permits
- Delegation to State Water Management Districts
- Application Sufficiency?
- Additional Suggestions for Program Implementation

Once you have had an opportunity to determine the appropriate EPA staff to invite to the meeting, please respond to this email with the list of invitees. From there, the Seminole Tribe will send out an invitation using their WebEx (for security reasons) to the EPA team and the Seminole Tribe's team.

I look forward to hearing back from you and please feel free to reach out with any further questions or clarifications.

Regards,

Rachael B. Santana | Attorney
